GitHub | LeetCode | CodeChef | HackerRank

## PROFESSIONAL SUMMARY

B.Tech student with hands-on experience in Python, machine learning, data preprocessing, exploratory data analysis, feature engineering, and data visualization. Developed projects involving regression, classification, and model evaluation using Pandas, NumPy, Matplotlib, Seaborn, and Scikit-learn, with a strong foundation in data structures and problem solving.

## TECHNICAL SKILLS

**Programming Languages:** Python, C, Java
**Data Science / Machine Learning:** Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Feature Engineering, Data Visualization, Regression, Classification, Model Evaluation
**Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
**Data Structures:** Arrays, Strings, Linked List, Stack, Queue
**Soft Skills:** Problem Solving, Teamwork, Communication
**Languages:** English, Telugu

## PROJECTS

**Student Performance Prediction System**

- Developed a machine learning model to predict student academic performance using attendance, study hours, and previous academic scores.
- Performed data preprocessing, exploratory data analysis (EDA), and feature engineering to identify factors influencing student performance.
- Implemented and compared regression models using Python and Scikit-learn to generate academic performance predictions.
- **Technologies:** Python, Pandas, NumPy, Matplotlib, Scikit-learn

**Customer Churn Prediction**

- Built a machine learning classification model to identify customers at risk of churn using customer demographics and service usage data.
- Applied data cleaning, exploratory data analysis (EDA), and feature selection to prepare datasets for model training.
- Evaluated classification models using accuracy, precision, recall, and F1-score to analyze prediction performance.
- **Technologies:** Python, Pandas, NumPy, Matplotlib, Scikit-learn

**Sales Data Analysis Dashboard**

- Analyzed sales data to identify revenue trends, top-performing products, and regional sales patterns using Python.
- Performed data cleaning and exploratory data analysis to extract insights from structured datasets.
- Created data visualizations to present key performance indicators and support data-driven decision-making.
- **Technologies:** Python, Pandas, NumPy, Matplotlib, Seaborn

## EDUCATION

**Prasad V. Potluri Siddhartha Institute of Technology**
Bachelor of Technology (B.Tech) | CGPA: 8.12 / 10

**Narayana Junior College**
Intermediate (MPC) | 88.3%

**S S G High School**
10th | 74%

## CERTIFICATIONS

- STEP Course English Proficiency – The Hindu
- C Programming Language Certification – Bytesone

## ACHIEVEMENTS

- Earned CodeChef Silver Badge by solving 250+ coding problems and completing all 500 difficulty-rating problems.
- Achieved 50 Days Coding Badge on LeetCode by solving 180+ problems.
